

# Psychology Sessions Onsite at School

## Calling for Expressions of Interest

We are excited to explore the possibility of offering **onsite psychology services at St Mary's Parish Primary School**. As part of our ongoing commitment to supporting the mental health and well-being of our school community, these services aim to provide accessible, confidential support for students navigating various challenges. Onsite sessions aim to increase communication between teaching staff and the psychologist as well as lessen the burden on parents to find private psychologists after school hours in the community.

Sessions would be partially funded under a **Mental Health Care Plan from a GP (gap fees would apply)** or **NDIS funding** can be used. Both **therapy and educational and behavioural assessments** also available.

If you or your child are interested in learning more or would like to take advantage of this service, please submit your expression of interest.

email Hannah or Michelle
